CAREER OBJECTIVE

Recent B.Tech Information Technology graduate with hands-on experience in software development through internships and academic projects. Currently working as a Remote Python Developer Intern at Zecser Business LLP. Skilled in Python, JavaScript, React.js, Node.js, REST APIs, SQL, MongoDB, Git, and problem-solving. Seeking a Junior Software Engineer role to contribute to software development, debugging, testing, and application maintenance while growing in a collaborative engineering environment.

SKILLS

Programming Languages: JavaScript, Python

Frontend Technologies: HTML5, CSS3, React.js, Responsive Web Design

Backend Technologies: Django, Node.js, REST APIs

Databases: SQL, MySQL, MongoDB

Software Development: Object-Oriented Programming (OOP), Data Structures, SDLC, Agile Methodology

Tools & Platforms: Git, GitHub, VS Code, Figma

Additional: Debugging, API Integration, Database Design, Problem Solving, Team Collaboration.

PROJECTS

CCTV Intel – AI Surveillance System

Jan 2025

Tools: Python, Computer Vision, Object Detection, NLP

- Developed an application for object detection and video analysis using computer vision techniques.
- Implemented image processing workflows and backend logic for result generation.
- Strengthened skills in software development, debugging, and algorithm implementation.

Campus Genie – Full Stack College Management System

Oct 2024

Tools: React.js, Node.js, MongoDB, REST APIs

- Developed a role-based web application for managing student requests and college workflows.
- Implemented frontend interfaces, backend APIs, and database integration.
- Used Git and GitHub for version control and project collaboration.

My Hero Scoreboard – Gamified Learning Platform

Jul 2024

Tools: Django, JavaScript, MongoDB

- Developed a web-based platform for student activity tracking and leaderboard management.
- Built responsive user interfaces and integrated backend services.
- Implemented database-driven workflows and real-time updates.

EDUCATION

B.Tech – Information Technology

Government Engineering College, Idukki, Kerala

Program Completed | Degree Award Expected: May 2026

WORK EXPERIENCE

Python Developer Intern | Zecser Business LLP (Remote)

Jun 2026 – Present

- Developing backend modules using Python and Django.
- Working with REST APIs and database integration.
- Performing API testing using Postman.
- Debugging and resolving application issues.

Web Development Intern | District Administration, Idukki, Kerala

Jun 2025 – Jul 2025

- Built a real-time activity monitoring dashboard using Django and JavaScript across three government departments.
- Developed secure REST API endpoints for workflow automation, reducing processing time by approximately 40%.
- Participated in code reviews with senior developers and maintained technical documentation for deployed features.
